Frank Grenier, MD, MPH

Frank (Francis) R. Grenier (Canada) is a public health physician and global health leader with over two decades of international experience in public health, emergency response and business operations spanning multiple continents.

Currently serving as the Chief Operations Officer at the World Health Organization (WHO) Headquarters in Geneva, Switzerland, Dr. Grenier leads the coordination of core services for WHO's operations in health emergencies.

Throughout his career, Dr. Grenier has been actively involved in health emergencies at global, regional and country level, including in extensive field developments in technical and management positions.

His contribution to the establishment of the WHO Health Emergencies Programme and his leadership have been pivotal in fostering a culture of continuous improvement and excellence in health emergencies.

Dr. Grenier holds a MD degree in Medicine and Surgery from Università Cattolica del Sacro Cuore in Rome and a Master of Public Health from the University of Minnesota.
